Personal Statement

A results-oriented Software Developer specializing in Python, AI integration, and process automation. Combines full-stack capabilities (Python/Flask backend, HTML/CSS/JS frontend) with deep experience in prompt engineering and leveraging LLMs to build efficient, data-driven solutions. Proven ability to manage projects independently and turn complex requirements into functional, scalable applications.

Work Experience

Software, Web & Ai Development Projects (Freelance 2021–Present)

- Developed custom software tools and Python-based automations for clients across various industries.
- Built and maintained dynamic websites using HTML, CSS, and JavaScript, with backend functionality in Python (Flask).
- Designed user-friendly tools for data analysis, process automation, and content generation.
- Delivered efficient, scalable solutions while managing multiple freelance projects independently.
- Integrated AI for content creation, process automation, data analysis, and enhanced customer engagement.

NYX Nieruchomości Real Estate | Social Media, Website & Tools Developer Intern (2023-2025)

- Designed and implemented internal software tools (e.g. using Python scripts) to automate administrative tasks and improve operational efficiency.
- Developed and managed social media strategies, significantly enhancing online presence and client engagement.
- Designed, developed, maintained, and updated the company website, improving functionality and user experience.

Bishop Challoner Catholic College *IT Technician* (2020-2022)

- Became the top specialist in laptop and computer repair and network management, providing tech support that enhanced department efficiency.
- Quickly became the most proficient laptop and computer hardware repair specialist in the department.
- Gained diverse IT skills, including installing operating systems and managing networks.

Cell Tech, Mobile Repair | Customer Service Specialist (2018-2019)

- Achieved a 30% revenue increase as the top salesperson.
- Enhanced customer experience by delivering excellent service and managing the entire sales process.
